DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mike Belk on 9/9/10.

Claim 32 has been amended as follows:

32. (Currently Amended) A circuit as claimed in claim 30, wherein the means for applying an algorithm derives values by a recursive operation

$$F(c, n) = F(c, n-1) + \sum_{j=0}^{n-1} I_{\text{avg}}(c, j) + F(c, 0)$$

in which:

$F(c, n)$ is the n th term of the vector result of multiplying the vector of target pixel drive currents for the c th column of pixels by the inversion of the matrix M , $F(c, 0)$ being the first term; and

$I(c, j)$ is a target current for the j th pixel in the c th column, the first pixel being $j=0$.

Allowable Subject Matter

2. Claims 16-32 are allowed.
3. The following is an examiner's statement of reasons for allowance:

As amended in the response filed 8/4/10, the limitation "compensation circuitry for modifying target pixel drive currents corresponding to desired pixel brightness levels, to take account of the voltage on the column power supply line at each pixel resulting from the currents drawn from the column power supply line by the plurality of pixels in the column being supplied by the column power supply line for each row addressing cycle in a field period and the dependency of pixel brightness characteristics on a voltage on a row conductor at the pixel and independent changes in the drain and source voltages of the drive transistor," in combination with the other limitations of claim 1 (and similarly claim 28), is not taught or suggested by the prior art. Therefore, claims 16-32 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to KEITH CRAWLEY whose telephone number is (571)270-7616. The examiner can normally be reached on M-F, 7:30-5:00 EST, alternate Fri. off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bipin Shalwala can be reached on (571)272-7681. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
